

BLAENK MINDS - ARTIST INFO

INTRODUCING...

Blænk Minds is a Berlin based audio-visual duo surfing on the edges of information and emotion, avantgarde and mainstream. Performing a live DJ – VJ show they incorporate all kinds of collaborations. Choreographers, painters, musicians, fashion designers and make-up artists are asked to bring in their work and art to let them interact and collide on an experimental and creative level. Blænk Minds are capturing all these projects into a state of the art audio-visual show. The faces behind Blænk Minds are Tilda and Kristian. Both have a long history in music and video, having defined a unique look and constantly inventing new ways of working with media and film.

IN SHORT

for every track Blaenk Minds is DJing, they produce a video / visual. Then mix these audio-video tracks in the club. Every video-track is a collaboration with different artists.
