stuff the venue provides

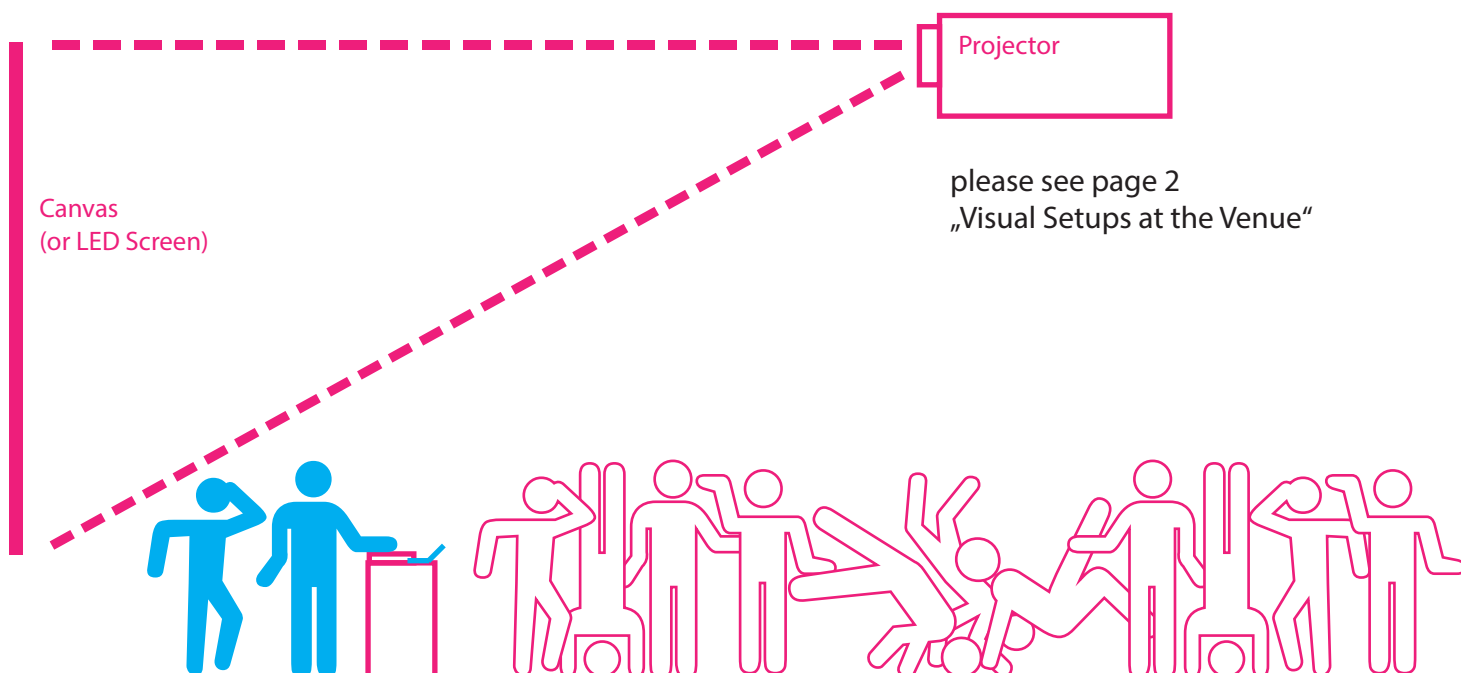

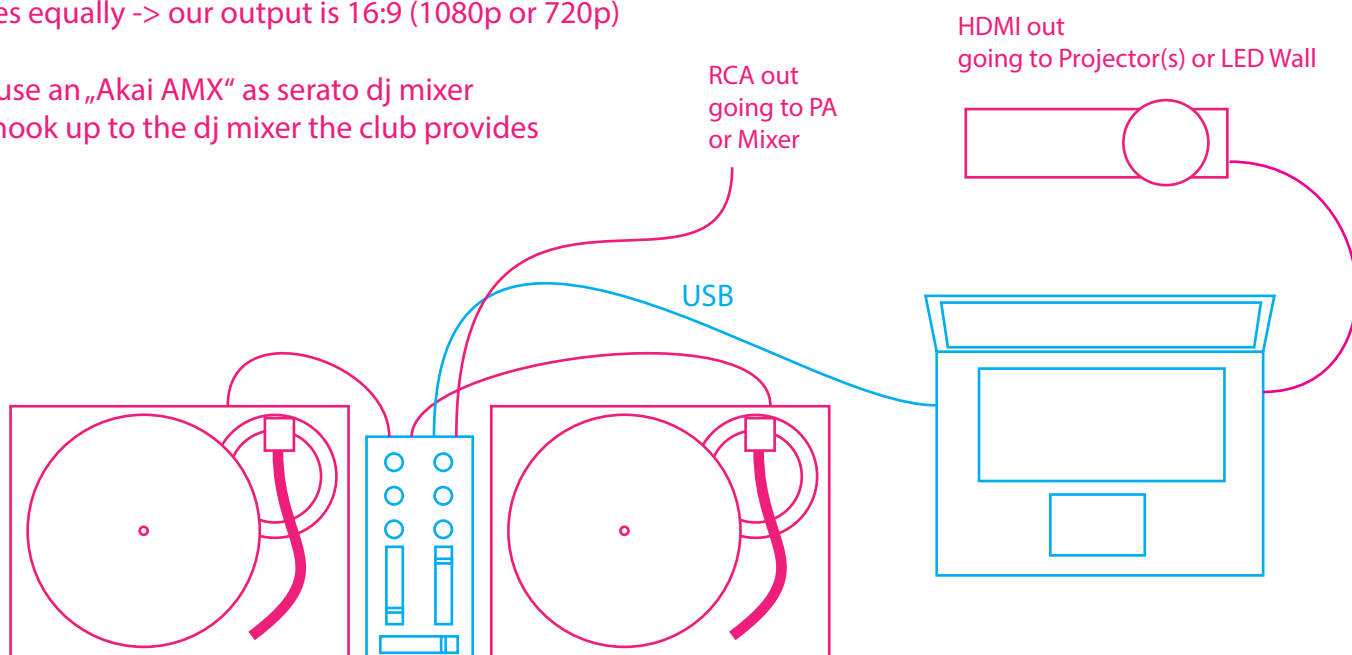

- 2 turntables with needles on a dj table
- projectors or led wall

-> the projections set up in the venue has to be installed so we have one HDMI cable laying on our dj table to feed all the projection spaces equally -> our output is 16:9 (1080p or 720p)

- we use an „Akai AMX“ as serato dj mixer and hook up to the dj mixer the club provides

stuff we bring

- „Akai AMX“ as Serato Controller / DJ mixer
- Headphones
- Laptop
- Timecode Vinyl

BLAENK MINDS

VISUAL SETUP AT THE VENUE

We understand, that you probably put a lot of hard work and thinking into the visual setup of your club. We respect and appreciate this a lot. However we have an output of 16x9 (720p) and our visuals sometimes contain text and stories. Please take a look at this YES and NO's. If u have questions, do not hesitate to contact us. We always find time to talk to you!

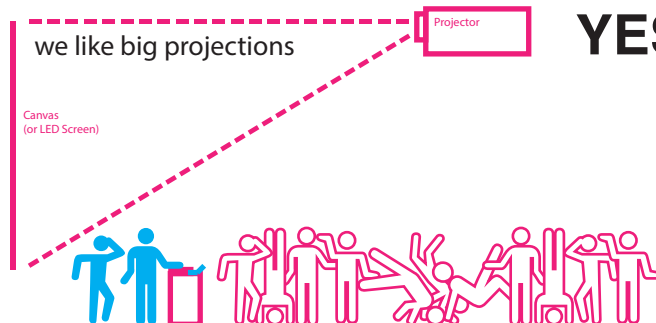

THANK YOU!

NO!

People don't see the visuals

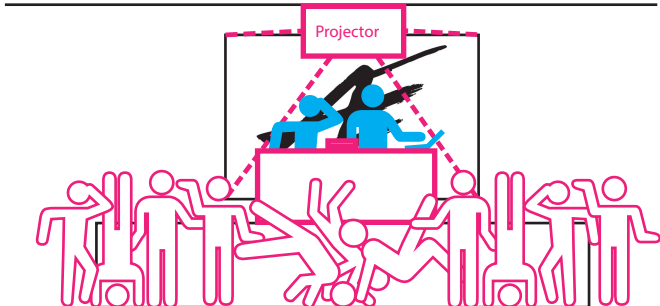

YES!

NO!

People don't see the visuals

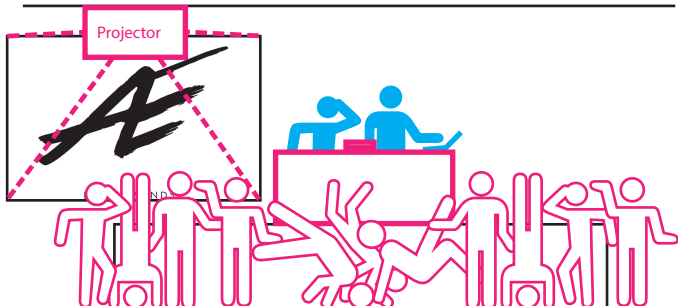

YES!

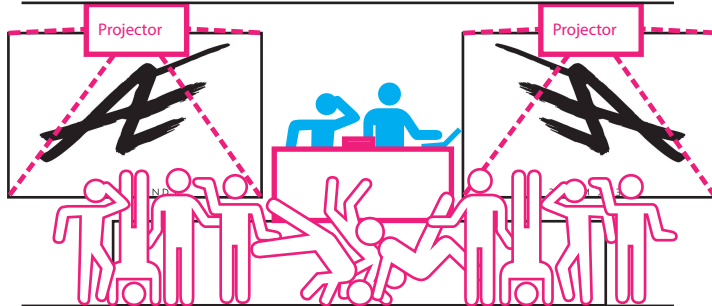

NO!

looks odd / asymeric

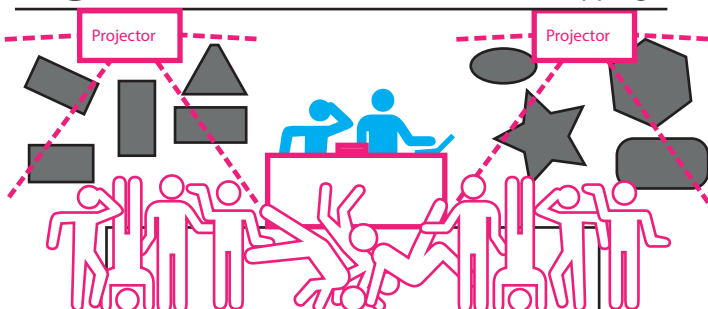

YES!

we like symmetry

NO!

we don't do mapping
